AROUND LYNCHBURG. Southern Railway Preparing for a Better Route for Freight.

Better Route for Freight.

(Special to The Times-Dispatch.)
LYNCHBURG, VA., July 25.—The
Southern Railway Company is having a
survey made east of Lynchburg for the
purpose of adopting a good route for a
freight route around this city, in order
to obviate the heavy grades on the preseent route, both north and south of the
city. The present survey will leave the
main line of the system some ten miles
north of here and run to the right and
coming back to the present tracks below
the city. This, with a very high bridge
over the James River, would do away
with a number of very heavy grades.
Several years ago the company had a
route surveyed, leaving the main fine in
Amherst county, running off to the left,
passing around the city in the vicinity
of the Virginia Christian College and returning to the main line some three or
four miles south of Lynchburg.

It is understood that the company tosires simply to have a double track
around the city for the handling of its
immense freight business to and from
the South.
